

WINNING WEAPONS IN THE WAR ON LIFE

Our **digital targeting** reaches abortion minded women where they are: on their phones and online. Once detected, we encircle her in a 'digital dome' ensuring our messaging leads to life-saving action...

Support pregnancy centers with targeted marketing + ultrasound machines

After graduating from the Air Force Academy, 4US founders Kim & Diego Wendt spent 25 years flying life-saving support to front line troops. In 2006, they started providing life-saving ultrasound machines to pregnancy centers on the front lines of the battle for the unborn. Having delivered 200+ ultrasound machines, they're expanding their **force multiplying mission** to provide digital targeting technology **to drive 2-3X more abortion-minded clients to pro-life pregnancy centers.**
